

On **January 13th** from **10:00 to 11:30**, we will open a new space specifically designed for pregnant women and mothers with babies up to approximately 6 months old.

This space offers an opportunity to share the early stages of motherhood. It will be a place where expectant and new mothers can connect, exchange experiences, and support each other.

Additionally, there will be visits from experts who will discuss various topics such as childbirth, filling out forms, and other relevant subjects.
